## **WORDS FOR FEELINGS**

Welcome to the **Developing Emotions** programme of lessons– and **thank-you** for taking part! This short test will help us find out how many words for feelings you and the other children in your class know. It is confidential, which means that no-one else will find out how many words you came up with.

### **Instructions**

Please read the original word, in the first column, and then write down other words with the same or similar meaning in the numbered columns. The first row has been completed for you as an example. Think of as many as you can, but don't worry if you can't fill all 8 columns!

<i>Original word</i>	<b>Words with similar meanings</b>
